

H.I.B Self Assessment 2014-2015

Crest Memorial continued to excel in terms of our anti-bullying programs in the 2014-2015 school year. While our score remains the same (73 of 78), we began implementing strategies to help us improve long term. We fully anticipate having even higher scores in the future, and look forward to working with students, staff, and community members to ensure that Crest Memorial is a positive and welcoming place to be.
