

# Screening Protocol

To help prevent the spread of COVID-19 and reduce the potential risk of exposure to our employees and students, we will be requiring everyone to complete a screening which involves making sure no one entering the building has any of the symptoms associated with COVID-19 that include:

- Cough
- Shortness of breath or difficulty breathing
- Chills
- Repeated shaking with chills
- Muscle pain
- Headache
- Sore throat
- Loss of taste or smell
- Diarrhea
- Feeling feverish or a measured temperature greater than or equal to 100.4 degrees Fahrenheit
- Known close contact with a person who is lab confirmed to have COVID-19

Parents are encouraged to post this protocol somewhere visible in the home and make sure children exhibit none of these symptoms each morning before entering the school building. If students or staff experience any of the above symptoms, we ask that you see a qualified health professional at your earliest convenience and abstain from entering the school building or having in-person contact with staff or students. Once cleared by the appropriate medical personnel of illness, you may return to CMS.

In our effort to limit the spread of COVID-19, we ask that you keep the school nurse informed of your health status if you suspect you have COVID-19. All screening information will be kept confidential by the Superintendent's Office and the nurse.
